

## Petition to London Borough of Redbridge to act on the nature emergency

We the undersigned call on Redbridge council to: pass a motion to 1) declare a nature emergency; 2) develop a comprehensive evidence-based nature recovery action plan; 3) embed nature recovery into all strategic plans and policy areas, making it a top strategic priority in planning policies and design guidelines for new developments; 4) commit to protect and manage at least 30% of council land holdings for nature recovery by 2030 (so contributing to national level nature and climate targets).
